During the year we have constructed new mains as follows: School Street, 660 feet of 6" cast iron pipe, costing \$982.02; Salem Street extension, 5,625 feet of 6" cast iron pipe, costing \$8,468; South Broadway extension, 2,412 feet of 6" cast iron pipe, costing \$3,511.10.

We also have installed a new unit at the Pumping Station at an approximate cost of \$7,000.00. There is a balance due on the cost of this unit of about \$3,500.00, but at this writing the job has not been accepted as complete. It is the hope of your board of water commissioners that this balance will be taken care of during this year from the funds of the water department.

REPORT OF TRUSTEES OF PUBLIC LIBRARY

The thirty-seventh report of the trustees of the Salem Public Library is herewith submitted:

The usual number of new books has been added to the library, among them a set of "My Book House," a fine collection of stories, well illustrated, selected from the standard works of literature. This set of books comprises a selection made by a mother for her child. It is bound in five volumes suitable for children up to high school age. These books will be loaned only on the responsibility of an adult.

Books have been loaned to the schools on request. Our librarian, Miss Hall, is compiling a picture collection and scrap-book especially for school use.

Respectfully submitted,
MARGUERITE NUTTING.
C. H. ALLEN.
MARY A. FISK.

REPORT OF THE BOARD OF HEALTH

About the usual number of contagious diseases during the past year, with the exception of diphtheria, and we hope with the Toxin-Antitoxin clinic we may be able to get along other years as we have this, without any cases of that dreaded disease.

There have been two deaths from tuberculosis during the past year.

The report in a sample of water sent to Concord February 10, 1930, says water "good."

The State Board of Health says we should install a chlorinating plant to be used at any time during the summer months when necessary.

There were 67 deaths during the fiscal year ending January 31st, 1930.

Population last census—2,318.

Death rate per thousand—25.88.

REPORT OF SCHOOL COMMITTEE.

The Salem School Committee hereby reports some of the work accomplished this year and also the needs in the near future.

The Center School or No. 1 did not require much this past year, but the interior is fast becoming dingy and will need redecorating this year or next.

The left entrance at School No. 3 (near Conley's) had the walls and ceiling covered with sheetrock and this was painted to correspond with the rest of the school. This school will not need a great deal, but if the jacketed stoves prove efficient at some of the more crowded rural schools, then one should be provided for this school.

The No. 4 School at North Salem needed a few minor repairs. A new wire fence was put up on the west side of the grounds to replace the board one which was blown down. The same stove conditions exist at this school as at No. 3.

The Millville School, No. 5, is in good repair on the exterior. The interior is poorly arranged and the light is very poor. This will require higher windows, rearrangement of the desks, and a jacketed stove, as the school has a large number of pupils. The interior will also have to be repainted as it is now peeling.

The Depot School, or No. 6, had a portion of its roof shingled as the article called for last meeting. The rest of the roof was patched and the entrance roofs were regraveled. The interior is very poor, the walls being cracked and the paint in very poor condition. The rooms are very dark and are in need of good electric lights and also new wiring, as the present is not very safe. The grounds are in very bad condition and do not make a beauty spot for Salem.

The Dark Entry School, No. 7, was painted on the outside

as asked for last meeting. The ceiling was covered with sheetrock and the whole interior was repainted. This school also needs the jacketed stove, as there are a large number of pupils.

The No. 8 School required extensive repairs. The interior was in very poor condition and was repainted entirely. The roof leaked and was patched, but will have to be done soon. The foundation and the chimney will also have to be repaired. The leeching field to the septic tank was not large enough and had to be enlarged.

The Hampshire Roads School, No. 9, did not require much. Wire screening was put on the lower windows to prevent breakage and also other breaks. This school needs painting badly and must be done this year. The water question is the most serious here, although the well had water in as soon as any other in the locality. The only solution of this other than the town supply would be the drilling of a deep well, and this would mean a new pump. This would be very expensive and we do not believe it advisable.

The old No. 9 building would need repairing if the district expects any income from it, but we believe that it should be sold and will have an article to be allowed to sell it.

The No. 10 building is idle, but only needs minor repairs to keep it in condition so that it will not depreciate.

The Woodbury High is the next building. The roof or the flashing has corroded and needs renewing, with the exception of a small portion which was replaced with copper. The interior is becoming dingy and the walls should be covered with a washable paint. The manual training should be considered so as to make our Junior High approved by the state, and a place should be provided for this as soon as the financial conditions will allow it. A wire fence will have to be put up on the west side of the grounds as agreed.

The school costs and needs have increased somewhat, but still our cost per pupil is among the lowest in the state. Our teachers' salaries are very moderate and we find out-

selves in a hard position to keep the best, for the high Massachusetts salaries attract them. However, our aim is to get the best education possible for our pupils, and still keep the costs moderate.

Respectfully submitted,

HOWARD E. TURNER,
HOWARD C. SMITH,
ELIZABETH B. COOPER,

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Board and Citizens of Salem:

Herewith I submit to you my third annual report, together with the reports of Headmaster Seward F. French of the High School, Mrs. Thompson, Supervisor of Music, and Miss Helen Thomas, School Nurse.

We had eight changes in the teaching force effective in September, due to voluntary resignations. Two of these were in the High School and six in the elementary grades.

There were 683 pupils enrolled in the schools last year, which is 16 more than during the year that ended in June 1928. The attendance averaged 95.7 per cent of the membership. This figure is a little better than the average for the state for this period. Forty-four pupils were graduated from the eighth grade and nearly all of these entered High School.

The following table shows the increase in attendance in the Salem schools for a period of six years:

Number of pupils enrolled in 1924,	496.
Number of pupils enrolled in 1925,	521.
Number of pupils enrolled in 1926,	612.
Number of pupils enrolled in 1927,	602.
Number of pupils enrolled in 1928,	667.
Number of pupils enrolled in 1929,	683.

The comparative cost of schools is of interest to the public. The per pupil cost in Salem elementary schools for last year was \$56.70. Only eleven of the 244 school districts of the state had a less per pupil cost. There were but six public high schools out of the 85 in the state that had a lower per pupil cost than that of Salem. The low cost per pupil in elementary schools is due in part to the fact that in nearly

every school there is a large number of children. Teachers' salaries have also been a factor.

The task of selecting teachers is perhaps the most serious and most important task the superintendent has to perform. He has to be able to read personal characteristics from observation and interviews aided somewhat by recommendations of others. He must attempt to analyze what we call personality; the qualities of tact, charm, earnestness, loyalty, poise, zeal, physical soundness, mental ability and the ability to meet the moral and spiritual obligations so necessary in influencing the character of the young.

The salary Salem pays necessitates usually the securing of teachers without experience; we do require them to have had normal school training. I believe the time is in sight when with the assistance of state aid, we shall be able to pay salaries that will attract and hold desirable experienced teachers.

It was reported last year that the one room rural schools were below standard in lighting, heating, and toilet facilities. Number 5 School at Millville Lake is most in need of improvement. By putting in additional windows on the left side of the room, changing the seating arrangement, installing a jacketed heater, and giving the walls a light buff tint, this room would be greatly improved. These changes would make the school standard except in the case of toilets. A jacketed heater is also greatly needed at the Number 7 School. The interior walls of Number 1 and Number 6 Schools are in such condition that they should be retinted soon.

An increasing number of school districts in this state have been arranging a school calendar which would provide for thirty-six actual weeks of school in the elementary grades. We are at the present time about one week short of this ideal.

At a meeting held recently at the Concord High School, and at which meeting nearly three hundred school board members and superintendents attended, the following facts were emphasized:

New Hampshire adopted a new school code in 1919, which has been in operation for ten years. The code has raised the quality of the schools in the less favored districts, financially. It magnified need of higher efficiency in the rural and elementary city schools. It gave added power and increased support to the State Department of Education, especially authorized it to create standards of attainment for secondary and private schools.

The code of 1919 provided equal length of school year for cities and rural communities, and no school in the state is in session less than thirty-six weeks. Now boys and girls in the most remote districts in New Hampshire are as well prepared for high school as those in the cities. The high school attendance increased forty per cent in ten years, and twice as many high school students go to college as ten years ago. The high school enrollments have increased six times as many as in elementary schools.

In 1919 few one-room schools had a teacher who had a normal school education. Now a majority of these schools are taught by normal school graduates. In 1919 many children were far from high school opportunities; now 90 per cent are within easy driving distance of a high school. Now all schools have the advantage of school superintendents who are college graduates, who have taught at least five years, who have satisfactory personal and professional records, and give their entire time to school supervision.

No new untrained teachers are employed and only untrained teachers of successful experience are retained.

Before 1919 one-fifth of the schools changed teachers during the year. The mid-year change of teachers in 1919 was 540. In 1929 it was only 98.

In nothing has there been greater progress than in the professional service rendered by the State Normal Schools at Plymouth and Keene. They are graduating students from the four-year course and every graduate is engaged in the state at once. They also graduate students from two-year

and three-year courses for elementary and junior high schools, and they are all employed in the state.

In only eight of the forty-eight states is the state tax for local public schools as low as in New Hampshire. In the state five times as much tax money is paid teachers as is expended for school buildings; and twenty-six times as much for teachers as for all administrative expenses.

The "Junior High" or Grades 7 and 8 at Woodbury High School is not an approved Junior High School. We meet all the requirements except we do not have manual training. It will be recalled that we gave up this branch because of lack of room. With a trained teacher, this work may be made a valuable training for our boys. I believe we should try to establish this work again.

The scholarship medals for the eighth grade, given by the Board of Trade, were awarded as follows:

Gold medal, William Crowell.

Silver medal, Arthur Railton.

Bronze medal, Barbara Dickey.

The work of the schools is progressing well this year. Achievement tests given at intervals show that good progress is being made.

In conclusion I express my thanks to the School Board for their generous support and commend the time and energy they have expended so generously for the good of the schools. I also commend the effective and loyal work of the teachers in guiding the pupils forward on the road to good citizenship. The work of the year has been very pleasant.

Respectfully submitted,

WILLIAM J. NELSON,

Superintendent of Schools.

WOODBURY HIGH SCHOOL.

To the Residents of the Town of Salem:

Woodbury High School is now in the fifth year of its existence and usefulness to the community. The giving of a report of various statistics and conditions of the school is a pleasure. The enrollment of the school remains about the same, although decreased over last year's enrollment at the present time to the extent of seven, and as I stated last year, the enrollment seems to be about normal for a town the size of Salem.

The enrollment of all six grades at the Woodbury High School is 212 boys and girls. The classes vary in size from twenty-four in the Junior class to fifty-two in the Freshman class, which is the largest class. This is to be expected. Under normal conditions we should look for a graduating class of about thirty. The graduating class this year will be thirty-three if all pass their work.

Eight persons make up the faculty of the school, who are handling the work as follows:

Headmaster, Seward F. French, B. S. in education, University of Vermont. English III, English IV, Sociology, Algebra I, coach of dramatics and basketball.

C. Edward Darling, B. S., Dartmouth. History I, History III, History IV, Economics, Science VII, Science VIII, assistant in Athletics.

Florence M. Brown, B. S., University of New Hampshire. General Mathematics, Advanced Algebra, Plain Geometry, Physics, Advanced Mathematics.

Mrs. Mariam T. Smith, A. B., Smith College. Latin I, Latin II, Latin III, IV, French I, French II, Commercial Arithmetic.

Dorothy M. Guild, B. S. S., Boston University. Bookkeeping I, Bookkeeping II, Stenography and Typewriting II, Office Practice.

Marion Turner, Plymouth Normal School. Biology, Cooking and Sewing (Grades 7 and 8), Clothing and Textiles, House and Its Care.

Mary A. Fisk, Salem Normal School. English I, English II, History VII, Commercial Geography VIII, History VIII, Commercial Geography II.

Hazel M. Bullis, Keene Normal School. Mathematics VIII, English VIII, English VII, Geography VII, Mathematics VII, Civics VIII.

The faculty, as shown by the above paragraph, is busy. When not actually in class the teachers are available for special work with all pupils. This gives the pupil who wishes help a fine opportunity to get the desired aid. Parents should always urge their children to keep in touch with their instructors regarding their standing and when there is danger of failing, pupils should secure special help following the regular session.

The records of the headmaster's office show the following interesting facts:

The Freshman Class is the only class where there was too large an enrollment to do satisfactory teaching, so the class has been divided into two groups. This enables the teacher to do more individual work with the pupils.

The scholastic standing of the school is improving. There are several sources from which we draw our conclusions. The school is approved by the State Department of Education and the New England College Certificate Board, and has had successful results with its former students in college. The headmaster was proud to receive word from one college stating that a former pupil of Woodbury High School was on the Honor Roll. Another nearly reached this honor. The pupils of the entire school have just taken achievement tests and in nearly every case the results have been very satisfactory. These tests are a source of comparison of the work done in our school with that of schools all over the country. The headmaster would be pleased to interview any parent regarding their child and their type of work. It might be especially valuable to both parent and student that such interview should take place, especially when the parent is considering sending the child to college. Such an interview does not necessarily concern only Seniors but may act as a guide to Freshmen or boys or girls entering high school next fall. Failures at college could in many cases be avoided by the pupils following the advice given them and either not attending college or entering the proper courses at college.

The outside activities of the school are the same as usual. Various events becoming more or less conventional. The scores of our teams have not been the best, but the policy of the school is to be able to play. The question of a field

where a better program can be carried out is still before us. The committee is still at work on a location. Athletics are expensive and the equipment used should be of the best. The policy of athletic growth must be controlled by the funds available. We are finding that to earn this amount with entertainment is almost impossible and some other source of aid will have to be found.

The school has established a library. We need reference books. There are a few copies but in no sense a sufficient number for convenient work. The greater our reference library the more efficient work will be done. Next year it will be necessary to replace books which we have used for the past five years. These copies have given unusual service.

The spirit of cooperation between the school and the people it serves is excellent. More people should become personally acquainted with the school and the aims of modern education. As ever your headmaster stands ready to serve the community in any way possible. An interview with me at the office, your home, or my home might help both parent and child in getting more out of school. My hours are at your convenience.

SEWARD F. FRENCH,

Headmaster.

REPORT OF SUPERVISOR OF MUSIC.

To the Superintendent and School Board of Salem:

I herewith present my annual report as Supervisor of Music in the Salem schools:

The text books are from the "New Educational Music Course," by Ginn & Company. Two new sets of books were added at the beginning of the school year; "Juvenile Music" for the third grade and "Three Part Music," a book of special charm and beauty, for the upper grades at Schools No. 8 and No. 9.

The work in musical appreciation proves very interesting to all. This work is carried on with the aid of the victrola and picture charts of the instruments of the orchestra. In May a music memory test was given, the list being made up of ten well known classics by noted composers.

On May 24th the annual concert of the Woodbury High School Girls' Glee Club was given. The Glee Club was assisted by the Pollard School Orchestra of Plaistow. The concert was repeated in the Town Hall at Plaistow on June 7th. The combined Glee Clubs presented the sacred cantata, "Praise and Thanksgiving," by Carrie B. Adams, on Sunday evening, November 24th. The boys and girls did commendable solo, duet and quartet work as well as fine chorus singing. Work on the operetta, "Jerry of Jericho Road," by Palmer John Clark, is well under way and will be given in the near future.

For the cooperation afforded me in my work, I extend my thanks to the superintendent, school board and teachers.

Respectfully submitted,

EVA W. THOMPSON.
